Operation Table

.....
Designed as a maintenance-free table to ensure hassle-free operation and long-lasting performance

TitanEon

Orthopedic Electric Operation table

Specification

- » Ball and socket traction mechanism allows smooth and easy adjustment to all leg positions.
- » Table includes remote control and additional control panel for convenience
- » Engineered with state-of-the-art German lifting technology, ensuring unmatched precision, effortless operation, and superior durability in every surgical procedure.
- » Featuring the most advanced and reliable braking system for maximum safety and stability during critical surgical procedures.
- » The T-shaped base design provides ample space around the table, allowing doctors to move freely and work comfortably during procedures.
- » Constructed entirely from premium stainless steel 304 grade, ensuring exceptional strength, corrosion resistance, and hygiene.
- » Designed as a maintenance-free table to ensure hassle-free operation and long-lasting performance.
- » Infrared-sealed mattress without stitching ensures maximum hygiene by eliminating gaps where dust, fluids, or bacteria can accumulate.
